

DIRECTOR OF CENTRAL INTELLIGENCE
Security Committee

2 NOV 1978

STAT

NOTE FOR: [REDACTED]
Special Assistant to the DCI

STAT

FROM : [REDACTED]
Chief, Security Committee Group

SUBJECT : National Space Policy

1. In connection with an agenda item for the 7 November meeting of your group, I mentioned that there was an ongoing, DCI directed task to see about selective relaxation of controls over space derived intelligence information. I mentioned this as being of possible assistance in efforts to see what should be compartmented and what can go out under collateral controls. I promised you a copy of the related paper. Here it is.

STAT

2. I've received and reviewed the package of comments on [REDACTED] proposal you sent me. Thank you. While there is a general sense of acceptance and willingness to work toward implementation, there is also a considerable number of cautions and problem areas. I'll try to factor the papers for common items of apprehension. Your group can then establish priorities on what to look at.
